JAMES TOCCO OFFERS PIANO AND CHAMBER MUSIC MASTER CLASSES AT GW

EVENT: **Master Classes with James Tocco**, sponsored by The George Washington University's Department of Music and presented with support of a grant from the Catherine Filene Shouse Foundation.

WHEN: **Piano Master Class**
Saturday, October 21, 1995
10:00 a.m.

Chamber Music Master Class
Monday, October 23, 1995
7:30 p.m.

WHERE: **Both classes will be held at:**
GW's Marvin Center Theatre
800 21st Street, NW
Washington, D.C.
(Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: **Free and open to the public**

James Tocco has established a world-wide career as soloist with orchestra, recitalist, chamber music performer and pedagogue. His repertoire of over 50 works with orchestra includes virtually the entire standard piano concerto repertoire, as well as more rarely performed works such as the *Syphonie Concertante* of Szymanowski, the *Kammerkonzert* of Alban Berg and *The Age of Anxiety* of Beethoven, Chopin and Liszt, as well as composers of the 20th Century. He is one of the few pianists in the world to program regularly the keyboard works of Handel.

Orchestras he has appeared with include the Berlin Philharmonic, the Munich Philharmonic, the London Philharmonic, the London Symphony the Chicago Symphony and the Los Angeles Philharmonic. He has participated in the Salzburg, Vienna, Lockenhaus, Holland and Schleswig-Holstein Festivals. In the United States he has made appearances at Wolf Trap, the Hollywood Bowl, Ravinia, Mostly Mozart and the Santa Fe Chamber Music Festival.

FOGGY BOTTOM'S HISTORY REVISITED IN THE MIDST OF GW'S 175TH ANNIVERSARY

**Student led walking tours of Foggy Bottom explore
one of Washington's oldest neighborhoods**

Washington -- Researched and guided by students from The George Washington University in honor of GW's 175th Anniversary, a one-hour walking tour of historic Foggy Bottom is being conducted every Saturday at 11:30am. The tour encompasses the general boundaries of Foggy Bottom -- Pennsylvania Avenue, Washington Circle, Constitution Avenue, 17th & 19th Streets, and the Potomac River. Highlighting the tour will be examples of 18th Century historic buildings coexisting with more recent structures associated with classrooms and residence halls of GW, luxury apartments in the Watergate and modern office buildings of the International Monetary Fund.

Foggy Bottom is one of the oldest parts of Washington and existed as a community even before the city was founded. It was established as the village of Hamburgh in 1763 by German immigrant Jacob Funk, almost 30 years before the creation of Washington, D.C. in 1791. What one sees today is a combination of the remnants of a historic past and the proliferation of late 20th Century developments. Much of the historic fabric has been lost to modern large-scale business and residential development. However, a small portion of Foggy Bottom remains intact - The Foggy Bottom Historic District.

Researched by Alexandra Buckley, a GW American Studies Graduate Student who was awarded a 175th Anniversary Fellowship, the walking tour brings much of this history to life. It illustrates neighborhood change over time and shows that this change reflects what is happening in the city at large. Foggy Bottom's humble beginnings in the worker houses, its 19th Century commercial success in the 2000 Pennsylvania row, the growth and development of the University as a defining feature of the area, the large-scale projects of the 1960's forever changing the landscape of Foggy Bottom, and the attempts at preserving the past are all shown.

- MORE -

The tour is offered every Saturday at 11:30am, now through November 18 and then again from February 3 through May 18. It begins at The George Washington University Visitors Center, 801 22nd street, NW (Foggy Bottom/GWU Metro on the Blue or Orange Lines). The tour is free and does not require reservations. Call (202) 994-0175 for further information.

GW'S CENTER FOR WASHINGTON AREA STUDIES ISSUES NEW BOOK ON EARLY GROWTH OF THE NATION'S CAPITAL

WASHINGTON -- The Center for Washington Area Studies at The George Washington University has released a volume of four essays, titled "**Southern City, National Ambition, The Growth of Early Washington, D.C., 1800-1860.**" The publication, which looks at the formative years of the nation's capital, complements an exhibit of the same name that will open at the Octagon and Anacostia Museums on October 14th.

Edited by **Howard Gillette Jr.**, GW professor of American civilization and history, the volume's authors are **David R. Goldfield**, Robert Lee Bailey Professor at the University of North Carolina at Charlotte and editor of the "Journal of Urban History;" **Professor Bernard Herman** of the University of Delaware; **Fredrika J. Teute**, editor of publications at the Institute of Early American History and Culture in Williamsburg, Virginia; and **Mary Beth Corrigan** of the University of Maryland's Department of History.

The essays contributed by these leading scholars explore the complex character of Washington as a product both of its southern location and the ambitions of the founding fathers. As George Washington put it, Washington would serve as "the channel of commerce" for the "trading of a rising empire," one that could serve the nation by forming a link to western rivers capable of "binding these people to us by a chain which can never be broken."

In addition to its account of the obstacles the city faced in achieving the stature of a world capital, the volume contains essays examining early architectural response to its dual character and its vibrant African American community. One essay focuses on the importance of class and gender in Washington's formative social relationship as described in Margaret Bayard Smith's writing.

The book, published in conjunction with the American Architectural Foundation, sells for \$17.95. Media review copies are available on request. Call 202/994-6071.

DOES NEGATIVE CAMPAIGN ADVERTISING TURN YOU OFF?

Results of a new four-year study of the effects of television advertising on voters to be discussed at GW lecture

EVENT: "Campaign Advertising and the Political Process," a public lecture sponsored by The George Washington University's National Center for Communication Studies and Political Science Department. The lecture will be given by **Dr. Shanto Iyengar**, professor of political science and communication studies at the University of California, Los Angeles.

WHEN: **Tuesday, October 10, 1995**
7:00 p.m.

WHERE: **GW's Marvin Center**
University Club
800 21st Street, NW
(Foggy Bottom/GWU Metro, Orange and Blue lines)

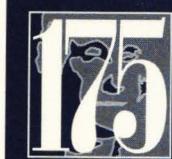

COST: **Free and open to the public**

BACKGROUND:

Do negative campaigns turn voters off? Shanto Iyengar will discuss the results of a new four-year study of the effects of television advertising on voters and how negative political advertising affects voter participation and election outcomes.

Shanto Iyengar, professor of political science and communication studies at the University of California, Los Angeles, is author or co-author of Explorations in Political Psychology (1993), The Media Game: American Politics in the Age of Television (1992), Is Anyone Responsible?: How Television Frames Political Issues (1991), News That Matters: Television and American Opinion (1987).

GW'S CENTER FOR HISTORY IN THE MEDIA TO OFFER EXPANDED PROGRAM IN DOCUMENTARY FILMMAKING

**New semester-length certificate program can be taken for up to
six graduate-level academic credits**

Washington -- The George Washington University's Center for History in the Media has expanded its documentary filmmaking course and now offers the only certificate program in historical documentary production in the country.

No experience in filmmaking is necessary. The certificate program benefits professionals from a wide variety of backgrounds, including historians, broadcasters, educators, museum specialists, anthropologists, visual artists, medical personnel, as well as graduate students of all disciplines.

The Center for History in the Media combines the discipline of history with the production of visual media. Courses offered through the Center focus on the interaction of history with film and television production. All aspects of writing, editing, directing, lighting and music for historical films are covered. The semester-length program will enable the participants to collectively produce a short historical documentary on a subject to be determined by the class.

Projects brought to or initiated by the Center serve to present historical topics of critical importance to national and international audiences. Participants in last summer's five-week session produced a short documentary about Hayden's expedition to Yellowstone in 1871. The project was made possible through a collaboration with the National Gallery of Art's Education Division.

The widely acclaimed Center is in its fifth year and is the only institute in the nation expressly devoted to teaching historical documentary production and producing new historical programming for national audiences. Among other awards, the Center received the 1991 Creative and Innovative Award of Merit from the North American Association of Summer Sessions.

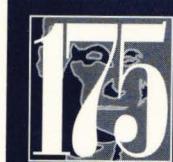

-more-

Nina Seavey is the Center's director and chief instructor. She has been a producer of television and film for the past 15 years and was formerly president of Historic Media Services. Her most recent film project is a documentary on the battle of the Alamo and will be aired by the Discovery Channel on March 3, 1996.

The cost for this program is \$5,000 and can be taken for academic credit totaling six graduate-level hours. All individuals completing the program will receive certification in historical documentary production. No financial aid is available for this program.

The program will run from January 16 to July 1, 1996. Classes will meet every Tuesday and Thursday from 5:30 p.m. to 7:30 p.m.

Application deadline is November 15, 1995. Contact Nina Seavey, director, Center for History in the Media, Rome Hall, Suite 407, Washington, D.C. 20052; phone (202) 994-6787; fax (202) 994-6231; e-mail: seavey@gwis2.circ.gwu.edu

GW SYMPOSIUM TO RECOGNIZE ORIGINS OF COMMUNICATING BY SATELLITE

Arthur C. Clarke, father of the communications satellite, to give keynote address via videotape; other speakers include Irving Goldstein, director general of INTELSAT and Michael Nelson, advisor to Vice President Al Gore

EVENT: "Communicating Via Satellites: A Partnership that Works," a symposium organized by the Space Policy Institute of The George Washington University's Elliott School of International Affairs and the Institute for Applied Space Research at GW's School of Engineering and Applied Science.

WHEN: Monday, October 16, 1995
9:00 a.m. to 5:00 p.m. (reception to follow)

WHERE: GW's Marvin Theatre
800 21st Street, NW
Washington, D.C.
(Metro: Foggy Bottom/GWU Station, Orange and Blue lines)

COST: Free (advanced reservations are advised)

BACKGROUND:

This symposium is being held in recognition of the 50th anniversary of Arthur C. Clarke's seminal paper in *Wireless World* which pointed out the benefits of stationing communication satellites in geosynchronous orbit. This year is also the 30th anniversary of the launch of the first commercial communications satellite, INTELSAT 1.

Symposium speakers will include both pioneers of satellite communications and individuals with an informed perspective on current and future prospects of the satellite communications industry.

To make reservations or for more information, please call (202) 994-7292.

**AWARD-WINNING "DANCING AT LUGHNASA" TO RUN NOVEMBER 2-5
AT GW'S DOROTHY BETTS MARVIN THEATRE**

**Brian Friel's masterpiece about five unmarried sisters won
1992 Tony Award for Best Play**

EVENT: **Brian Friel's "Dancing at Lughnasa,"** presented by The George Washington University's Department of Theatre and Dance and directed by **Marian DiJulio.**

"Dancing at Lughnasa" is the story of five unmarried sisters in Ireland during the Pagan Festival of Lughnasa in 1936. They live in a small village and a radio is their only link to the world at large. The music, their dancing and the many events that occur contribute to the transformation of their lives and the crumbling of their proper Catholic family structure.

Guest director Marion DiJulio was for five years the director of the Act III Shakespeare Company in Arlington and has been literary manager for Horizons Theatre for the past nine years. She holds an MFA in dramatic art from The George Washington University and has performed in film and on stage in Chicago and Washington, D.C. DiJulio has been a theatre educator for 25 years and is currently teaching in Montgomery County Public Schools.

WHEN: **Thursday through Saturday, November 2-4
8:00 p.m.**

**Sunday, November 5
2:00 p.m.**

WHERE: **GW's Dorothy Betts Marvin Theatre
800 21st Street, NW
Washington, D.C.
(Metro: Foggy Bottom/GWU Station, Orange and Blue lines)**

Alumni House

**GW TO PARTICIPATE IN FIRST
WASHINGTON BOOK AND INFORMATION TECHNOLOGY FAIR
NOVEMBER 11TH & 12TH**

Nick Lakes

**Proceeds from event to benefit the
Greater Washington Metropolitan Boys and Girls Clubs**

EVENT: "Washington Consumer Book and Information Technology Fair,"
sponsors include The George Washington University and its
Gelman Library, Crown Books, Smithsonian Institution, Time-
Life Books, The Washington Post and Prodigy Services.

WHEN: Saturday and Sunday, November 11 and 12, 1995

WHERE: Washington Convention Center
900 9th Street, NW
Washington, D.C.
(Metro: Metro Center Station)

COST: \$5 at the door

BACKGROUND:

Proceeds of this event will benefit the Greater Washington
Metropolitan Boys and Girls Clubs.

An event for the entire family and the general reading public,
but of special interest to high school students and teachers; college
students and faculty; and those persons interested in learning of the
latest in information technology.

Book dealers and publishers from the Washington area and around
the country will be present to display their publications. Special
attention will be provided to electronic products, including data
bases and software packages. There will be exhibitions of new
technology, as well as writers' workshops, information technology,
multimedia demonstrations and home entertainment forums. Local and
national authors will be present to autograph their publications.
Books and software will also be on sale.

-more-

21st F.I.R. M. 11/10/21

The George Washington University and its Gelman Library in particular are undertaking this project in order to help identify Washington, D.C. as an intellectually vibrant city and as a national center for consumers of published material. The Washington area contains the fifth largest reading population in the U.S., a fact which the sponsors of the Book Fair hope to bring to the attention of publishers and dealers around the world.

According to Jack Siggins, librarian at The George Washington University, "this is expected to be an annual event that will grow in size and areas of interest as more commercial and non-profit organizations become aware of the opportunity to display their own products and learn about those of others."

For more information, please contact Dave Evans (202) 546-9634, Herb Cooper (202) 466-8209 or Jack Siggins at GW (202) 994-6455.

INFORMATION WARFARE: HACKERS AND CRACKERS AND THE PROJECTION OF POWER

"Third Tuesday" monthly seminar series to discuss information as an element of power

EVENT: "Information Warfare: Hackers and Crackers and the Projection of Power," seminar sponsored by The George Washington University's Institute for Computer and Telecommunications Systems Policy in the School of Engineering and Applied Science.

Speaker: John I. Alger, Ph.D., dean, School of Information Warfare and Strategy, National Defense University, Ft. McNair.

Discussant: William Caelli, Ph.D., head, School of Data Communications, Queensland University of Technology, Brisbane, Australia.

WHEN: **Tuesday, October 17, 1995**
4:00 p.m. to 6:00 p.m.

WHERE: **Marvin Center, Room 413-414**
21st and H Streets, NW
Washington, D.C.
(Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: **Free and open to the public**

Since the Gulf War, the Department of Defense has increasingly committed manpower, dollars and intellectual energy to understanding the implications of information as an element of power. New definitions have resulted and new organizations have emerged -- in spite of downsizing. New curriculums have been developed and new ideas of competition and conflict are challenging traditional concepts of war and peace.

At the center of these changes lies the concept of the information war. This presentation presents an overview of current information warfare initiatives in the Department of Defense and assesses whether Information Warfare is a passing fantasy romanticized by the hackers and crackers of cyberspace or a unifying concept for conflict in the 21st century.

**GW TO HOLD RIBBON-CUTTING CEREMONY FOR THE ALEXANDRIA
GRADUATE EDUCATION CENTER OCTOBER 23**

**Landmark public/private partnership brings graduate
education to downtown Alexandria**

WHAT: Ribbon-cutting ceremony to inaugurate The George Washington University's Alexandria Graduate Education Center.

Invited speakers and guests include:
Stephen Joel Trachtenberg, president, The George Washington University
The Honorable Jim Moran, U.S. Representative (D.-Va.)
Mayor Patricia Ticer, city of Alexandria
Delegate Marian Van Landingham, Alexandria City Council

WHEN: Monday, October 23, 1995
10:30 a.m.

WHERE: 1775 Duke Street
Alexandria, Virginia
(King Street Metro Station)
Underground parking available, enter on Reinekers Lane.

Background:

GW's new graduate education center offers an array of evening and weekend programs for graduate certificates and degrees to a growing professional population in the city of Alexandria. The center is located in a new building at 1775 Duke Street where it occupies 11,600 square feet of first floor space. Easily accessible by Metro or by car, the center houses seven classrooms including a tiered classroom, special observation rooms, a model practices classroom and state-of-the-art computer lab.

As a result of the partnership between the University, Alexandria city officials and the Alexandria Economic Development Partnership, GW is offering nine graduate education programs

administered by four schools -- Columbian School of Arts and Sciences (Sampling and Data Analysis); School of Business and Public Management (Accelerated Master of Business Administration), Graduate School of Education and Human Development (Bilingual Special Education, Language and Education, Human Resource Development, Infant and Early Childhood Special Education and School Counseling), School of Engineering and Applied Science (Engineering Management and Information Management and Information Systems). Classes are scheduled to begin January 1996.

Currently celebrating its 175th anniversary, The George Washington University was created by an Act of Congress in 1821. Located four blocks from the White House, GW is the largest institution of higher education in the nation's capital. The University offers comprehensive programs of undergraduate and graduate liberal arts study as well as degree programs in medicine, law, engineering, education, business/public management and international affairs. Each year, GW enrolls a diverse population of 19,000 undergraduate, graduate and professional students from all 50 states, the District of Columbia and some 100 countries.

ENGINEERING RESEARCH EXPO
TO BE HOSTED BY GW'S SCHOOL OF ENGINEERING AND APPLIED SCIENCE
AT VIRGINIA CAMPUS NOVEMBER 2

Virtual reality in medicine and museums and vehicle crash simulation are among the many research activities to be demonstrated

EVENT: **Engineering Research Expo**, hosted by The George Washington University's School of Engineering and Applied Science at it's Virginia Campus. In cooperation with Virginia's Center for Innovative Technology and the Northern Virginia Technology Council.

The Expo will include seminars, lab demonstrations and tours for science, technology and engineering leaders.

WHEN: **Thursday, November 2, 1995**
1:30 p.m. to 6:30 p.m.

WHERE: The George Washington University Virginia Campus
20101 Academic Way
Ashburn, VA
(At University Center, Rt. 7, one mile west of Rt. 28)

COST: Free

BACKGROUND:

Engineering Research Expo will showcase the extensive research conducted by GW's School of Engineering and Applied Science. The program will showcase faculty expertise through talks, laboratory demonstrations and tours and presentations that combine technical information with commercial use.

Seminars and laboratory demonstrations will include the following topics: Virtual reality and computer graphics, transportation technologies, including biomechanics modeling and simulation and intelligent transportation systems, magnetic phenomena, bubble memories and ferrite development, telecommunications, networks and mobile communications, medical imaging, structural fatigue and vibration.

-more-

The expo consists of three one-hour sessions with four or five concurrent seminars that attendees may choose from. The sessions are divided by two open poster sessions/refreshment breaks. The open poster sessions give attendees an opportunity to talk with the researchers/professors to find out more specifically about their research. Poster session research subjects include: Molecular Dynamics Simulation of Metal Deposition, Radar Modeling of Forests, Computational Flow Simulations, Properties of Magnetic Nanocomposites of High Energy Reaction Milling.

The GW Virginia Campus, opened in August 1991, serves international technology and management organizations from its location in the rapidly growing Northern Virginia technology region near Dulles International Airport. Seventeen master's and doctoral programs are offered in fields such as engineering, business and management, information systems and human resource development and include innovative executive and accelerated weekend programs to meet the demands of change. Inside the award-winning 71,000-square foot building, state-of-the-art laboratories support leading research in telecommunications, transportation technologies and vehicle/highway safety, magnetics, structural testing, computer graphics and physics. In 1994/95 the Virginia Campus exceeded 1,100 registrations and \$2 million in research.

Celebrating its 175th Anniversary, The George Washington University, through the Virginia Campus, provides outstanding graduate education and research for superior technological and management competitiveness.

For more information, please contact Robin Geiger at (703) 729-8302 or Janet Wenzel at (703) 729-8300.

INFORMATION SUPERHIGHWAY USED TO GAIN INSIGHT INTO THE HEALTH CARE SYSTEM

**"Third Fridays" monthly seminar discusses the promises and
limits of health policy simulation**

EVENT: **"Lessons Learned from SimHealth: The Promise and Limits of Health Policy Simulation,"** seminar sponsored by The George Washington University's Ronald Reagan Institute of Emergency Medicine, Institute for Medical Imaging and Image Analysis and the Institute for Computer and Telecommunications Systems Policy. Speaking will be **John Hiles**, president, Thinking Tools, Inc.

WHEN: **Friday, October 20, 1995**
3:00 p.m. to 5:00 p.m.

WHERE: **Marvin Center, Room 410-415**
21st and H Streets, NW
Washington, D.C.
(Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: **Free and open to the public**

John Hiles has been responsible for the conceptual design of simulations dealing with health care reform, competition in the telecommunications industry and future transportation systems. His firm develops computer applications that combine ideas from the human interfaces of popular computer games with new simulation techniques to provide insights into complex adaptive systems such as the health care system by allowing visualization and understanding of the interactions involved. He will discuss his experience with the design, development and use of SimHealth and other simulation tools and reactions to it by professionals in health, policy, computers and government.

This seminar is the second of three on the topic: **"Technology and Health Care: Visions for the 21st Century."** The last seminar on the third Friday in November will discuss surgery in the next century.

1995 AMBASSADORS LECTURE SERIES PRESENTS PRINCE BANDAR BIN SULTAN BIN ABDULAZIZ OF SAUDI ARABIA OCTOBER 18

WHAT: Saudi Arabian Ambassador Prince Bandar bin Sultan bin Abdulaziz is featured speaker at The George Washington University Fall 1995 Ambassadors Lecture Series. Reception to follow.

WHEN: Wednesday, October 18, 1995
4:30 p.m.

WHERE: The George Washington University
Marvin Center Betts Theatre
800 21st Street, NW, Washington, D.C.

COST: Free and open to the public.

Background:

The son of His Royal Highness Prince Sultan bin Abdulaziz Al-Saud, the second deputy premier and minister of defense and aviation, Prince Bandar bin Sultan was appointed ambassador to the United States in 1983. He has served as special envoy for the Custodian of the Two Holy Mosques King Fahd in special assignments including negotiation of the cease fire in the Lebanese Civil War in 1983. Prince Bandar has been a member of Saudi Arabia's delegation to the 38th through 43rd sessions of the United Nation's General Assembly.

Prince Bandar graduated from the British Royal Air Force College (Cranwell, England) in 1968 and received a commission in the Royal Saudi Air Force (RSAF). His 17-year military career included commands of fighter squadrons at three RSAF bases and program management responsibilities in the Project Peace Hawk modernization where he reached the rank of lieutenant colonel. Assigned to represent his country in Washington during the debate on the sale of F-15s (1978) and AWACs (1981) to Saudi Arabia, he was later selected to serve as the Kingdom's Defense Attaché in Washington in 1982.

Prince Bandar completed his post-graduate education at several professional military schools throughout the United States and received a master's degree in international public policy from Johns Hopkins University's School of Advanced International Studies in Washington, D.C., in 1980.

THIS EVENT IS NOT OPEN TO MEDIA COVERAGE.

**GW'S JAROL MANHEIM EARNS 1995 "PROFESSOR OF THE YEAR" AWARD
FROM CARNEGIE FOUNDATION**

WASHINGTON -- Jarol Manheim of The George Washington University has been named the 1995 District of Columbia "Professor of the Year" by the Carnegie Foundation for the Advancement of Teaching. He was selected from nearly 550 faculty members nominated by colleges and universities throughout the country.

"I've always found teaching undergraduates to be the most rewarding part of the university experience," said Manheim after being notified of the award. "Those students are the heartbeat of a place like GW -- and I'm really thrilled to have been selected for this honor."

Manheim is professor of political communication and political science and director of GW's National Center for Communication Studies and of the Political Communication Program. He received his bachelors degree in political science and economics from Rice University and his masters and doctoral degrees in political science and economics from Northwestern University, the latter in 1971. He taught for four years at the City College and the Graduate Center of the City University of New York and for thirteen years at Virginia Tech before coming to GW in 1987.

Manheim's article together with W. Lance Bennett, "Taking the Public By Storm: Information, Cuing and the Democratic Process in the Gulf Conflict," won the 1994 Donald McGannon Research Essay Award for Social and Ethical Relevance in Communication Policy. His serial reference book, Datamap: Index of Published Tables of Statistical Data (with Allison Ondrasik), received the American Library Association's designation "Outstanding Reference Source of 1984."

The Council for Advancement and Support of Education (CASE) established the Professors of the Year program in 1981 and works in cooperation with The Carnegie Foundation and various higher education associations in its administration.

This year, Carnegie Foundation announced winners in 49 states and the District of Columbia. CASE assembled two preliminary panels of judges to select most of the state winners and the national finalists. The Carnegie Foundation then convened a special panel, which selected the remaining state winners in addition to four national winners.

-more-

The Carnegie Foundation for the Advancement and Support of Education is an international association of colleges, universities and independent elementary and secondary schools. Representing these institutions are professionals in the fields of alumni relations, communications and fundraising.

For further information about Professor Manheim, please call Loretta Hardge at GW (202) 994-4750. For further information about the award, please call Tony Pals (202) 328-5980.

GW TO BREAK GROUND FOR FIRST NEWLY CONSTRUCTED RESIDENCE HALL SINCE 1939

October 26 ceremony to kick off construction of
environmentally-sustainable residence hall for 444 students

EVENT: Groundbreaking Ceremony for a new residence hall on the campus of The George Washington University.

DATE: Thursday, October 26, 1995
11:00 a.m.

LOCATION: 24th and H Streets, NW
Washington, D.C.

(Foggy Bottom/GWU Metro, Blue and Orange lines)
Rain site: University garage (2211 H Street, NW)

BACKGROUND:

The last residence hall to be built by GW is Strong Hall (620 21st Street, NW), which opened in 1939 and is still in operation as a residence hall for women. GW's 13 other residence halls were existing structures, mostly former hotels and apartment buildings. The last such residence hall acquisition was The Dakota, formerly an apartment building located at 2100 F Street, NW.

Over 95 percent of GW freshmen live in residence halls on campus, while more than 50 percent of all undergraduates at GW reside in University residence halls.

Now celebrating its 175th anniversary, The George Washington University was created by an Act of Congress in 1821. Today, GW is the largest institution of higher education in the nation's capital. The University, which is located four blocks from the White House, offers comprehensive programs of undergraduate and graduate liberal arts study as well as degree programs in medicine, law, engineering, education, business/public management and international affairs. Each year GW enrolls a diverse population of 19,000 undergraduate, graduate and professional students from all 50 states, the District of Columbia and some 100 countries.

FACTS ABOUT THE FUTURE RESIDENCE HALL (2350 H STREET, NW)

SITE:

Southeast corner of 24th and H Streets, NW

SIZE:

The nine-story building will contain 119 units and house 444 students. The units will be configured as one- and two-bedroom apartments each with a living room, kitchen and bathroom. Each unit will be cable-ready; every student will have a data port for computer use.

PARKING:

Below the building will be two levels of parking with 57 spaces to be assigned as part of the general University parking inventory.

DESIGN:

The building is designed to complement its neighboring buildings, using a red brick compatible with the St. Mary's Episcopal Church, St. Mary's Court and GW's Hillel Center. Its fenestration, restrained decoration of precast cornices and base and its courtyard facing H Street reflect its residential use and character. Dock areas below the building allow vehicles servicing the building to avoid the public alley behind the building adjacent to the church and eliminate the need for a rear loading dock.

ENVIRONMENTAL FEATURES:

Special features of the building include a system to encourage the recycling of trash and an interior finished with materials selected for their benign qualities. The interior materials were specified by an environmental consultant and especially chosen to avoid toxic volatiles from paint, glues, carpet fibers and backings and from furniture fabrics and components. The resulting building is one designed to be a pleasing, functional and healthy student residence and a positive addition to the strong residential character of the neighborhood.

SCHEDULE:

Building is scheduled for occupancy in the Spring of 1997.

WASHINGTON SEEN: A PHOTOGRAPHIC HISTORY, 1875-1965
BOOK SIGNING TO BE HELD NOVEMBER 1

**Author and GW Professor Howard Gillette, Jr., to sign and discuss
his newly released book at a reception in GW's Gelman Library**

EVENT: "Washington Seen: A Photographic History, 1875-1965," book signing and discussion with Howard Gillette, Jr., author and The George Washington University professor of American civilization and history. Sponsored by GW's Melvin Gelman Library and the Center for Washington Area Studies.

WHEN: Wednesday, November 1, 1995
5:00 p.m.

WHERE: Gelman Library
The George Washington University
21st and H Streets, NW
Washington, DC
(Foggy Bottom/GWU Metro, Blue and Orange lines)

BACKGROUND:

Professor Howard Gillette, Jr., has devoted most of his career researching, teaching and writing about Washington. His interest and expertise in America's urban development and politics are the driving forces behind his research into the District's urban policy, planning, race relations and history.

Dr. Gillette has been a strong supporter and advocate for both the Gelman Library and GW's Center for Washington Area Studies. He has presented numerous books and manuscripts to the library. The founder and first director of CWAS, Gillette has continued to play a major role in the Center's development and ongoing research, and CWAS has supported much of Gillette's research over the years.

**DRS. PAUL AND PAT FRISHKOFF TO SPEAK AT GW'S
CENTER FOR FAMILY ENTERPRISE FORUM**

Nov. 8th all-day forum entitled
"Management Development and Family Communication"

WHAT: "Management Development and Family Communication," an all-day forum hosted by GW's Center for Family Enterprise featuring Drs. Paul and Pat Frishkoff

WHERE: The University Club
The George Washington University
Marvin Center, 3rd Floor
800 21st Street, NW
Marvin Center

WHEN: Wednesday, Nov. 8th
9:00 a.m. to 4:00 p.m.

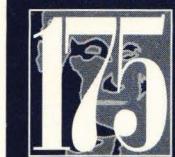

Reception to follow at 4:00 p.m.

BACKGROUND:

Leading experts in the field of family enterprise, the Frishkoffs work exclusively with family businesses in their practice -- leading seminars and consulting one-on-one with families in business. They also facilitate family meetings focused on leadership succession issues.

Pat is founder and director of the nationally known Family Business Program at Oregon State University. Consultant, educator and dynamic speaker, Pat was honored in 1989 with the prestigious Leavy Award for Excellence in Private Enterprise Education. She holds her Doctorate in Business Administration from Kent State University.

Paul's seminars, workshops and one-on-one work in career/life planning and in business creativity have spurred and enhanced his work with family businesses. He is a Professor of Business at the University of Oregon, having earned his Ph.D. at Stanford. He and Pat are parents of three children; Paul himself is the son and grandson of entrepreneurs.

GW MANAGEMENT PROFESSOR ISSUES REPORT ON "DC JOBS FOR DC RESIDENTS"

Washington, D.C. -- Charles Toftoy, associate professor of management science and director of the Center for the Advancement of Small Business at The George Washington University School of Business and Public Management recently released a report entitled "DC Jobs for DC Residents."

The report examines the factors that contribute to unemployment in the District of Columbia. The study, which included interviews of 175 unemployed DC workers, seeks to better understand what types of jobs residents want and need based on their current qualifications.

According to Toftoy's report, Washington, DC has two very different economic situations within its boundaries. Statistical studies of the District, largely affected by the higher income areas, do not allow for an accurate portrayal of the disadvantaged areas of the city. Consequently, the study approaches the unemployment situation in DC ward by ward and has unearthed a number of interesting facts, including:

- The unemployment rate in the entire District is only 6.5%, but in Ward Eight alone the rate stands at 15.8%;
- DC's median household income is listed at \$30,727, but in Ward Eight over 25% of the households are below the poverty line;
- 33% of District residents have completed over four years of college, in Ward Eight this number drops to 8%.

The report also includes information on District unemployment benefits paid to workers from Virginia and Maryland and income tax paid to Virginia and Maryland by those who commute into the District to work. In addition, it offers suggestions for economic growth, specifically in the area of small business, and ways in which the DC government can change the current business climate.

For a full copy of the report, please contact Dr. Charles Toftoy at (202) 994-4935.

IF IT'S JESSE JAMES, THE THIRD TIME'S A CHARM

**GW Law and Forensics Professor James Starrs to supervise
infamous renegade's third burial on Oct. 28**

WASHINGTON -- A third burial for what are thought to be the remains of Jesse James is scheduled for Saturday, October 28 in Kearney, Missouri. Purported to have died and been buried in 1882, Jesse James' body was exhumed and reburied in 1902. The remains were again exhumed on July 17, 18 and 19, 1995 by a team of scientists led by James E. Starrs, a professor of law and forensic sciences at The George Washington University. Under the terms of a court order authorizing the exhumation, Starrs is required to rebury the remains on or before October 31, 1995. "We wanted to avoid the spectacle of a reburial on Halloween," said Starrs, "so we selected October 28th."

A funeral service at the Knights of Columbus Community Center (705 North Jefferson - Highway 33) in Kearney, Missouri, is scheduled for 1:00 p.m. The reburial follows at Mount Olivet Cemetery in Kearney. The casket containing the remains will be on view at the Fry Funeral Home earlier in the day from 8:00 a.m. to 11:30 a.m. A horse-drawn hearse, of 1882 vintage, will convey the casket from the funeral services to the cemetery. A group of uniformed Confederate army re-enactors, assembled from around the country, will accompany the procession and will fire a rifle salute at the time of the reinternment.

The descendants of Jesse James selected Starrs to act as a pallbearer along with a number of notable Jesse James historians. All six of James' great grandchildren are scheduled to attend the reburial, including one from Hawaii. Robert Hawkins, Esq., made the arrangements for the reinternment and can be contacted at 314/635-3000.

"The reburial should not be misunderstood as the end of the scientific investigation into the identity of the remains," commented Starrs. "The identity is still being analyzed by mitochondrial DNA testing." The report of his team's scientific findings on the matter of remains' identification will not be released until February 23, 1996 in Nashville, Tennessee, at the annual meeting of the American Academy of Forensic Sciences.

Professor Starrs may be reached at 202/994-6770 or 703/978-8509.

GW'S INSTITUTE OF BRAZILIAN BUSINESS AND PUBLIC MANAGEMENT ISSUES TO HOST FORMER BRAZILIAN PRESIDENT ITAMAR FRANCO NOVEMBER 9

EVENT: "Governability in the Developing Countries," a speech by Itamar Franco, Brazilian Ambassador to Portugal and former president of Brazil. Sponsored by The George Washington University School of Business and Public Management's Institute for Brazilian Business and Public Management Issues.

WHEN: Thursday, November 9, 1995
4:00 p.m.

WHERE: Marvin Center, Room 405
The George Washington University
800 21st Street, NW
Washington, D.C.
(Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: Free and open to the public (reservations are required)

BACKGROUND:

The Institute of Brazilian Business and Public Management Issues (IBI) was established in 1990 to promote stronger U.S.-Brazil relations within the changing international order. IBI seeks to work with all interested parties and especially the business sectors of both countries. It encourages the resolution of differences and identifies areas where relations might be expanded.

While IBI initiatives stress the need for effective management of economic and business questions, they inevitably treat the broader national contexts into which these questions fit. These efforts strive to achieve two major goals: to bring together a wide range of business leaders, legislators, academicians, government experts, students and others who have an interest in U.S.-Brazil relations; and to assist the expansion of mutually beneficial relations between the U.S. and Brazil.

To reserve a seat, please send your name, organization and telephone number by phone: (202) 994-5205; fax (202) 994-5225; or mail to: 2020 K Street, NW, Suite 230, Washington, D.C. 20052.

**"THE GOSPEL ACCORDING TO ..." TO RUN AT
GW'S DOROTHY BETTS MARVIN THEATRE NOVEMBER 16-18**

EVENT: "The Gospel According to ...," a dance performance conceived and directed by Heidi Geier, a graduate student at The George Washington University.

DATES: Thursday through Saturday, November 16-18, 8 p.m.

PLACE: GW's Dorothy Betts Marvin Theatre
Marvin Center
800 21st Street, NW
Washington, D.C.
(Foggy Bottom/GWU Metro, Blue and Orange lines)

TICKETS: \$8 (\$5 students/seniors)
For ticket information, please call (202) 994-6178

Background:

"The Gospel According to ..." explores several main archetypes found in Holy Scriptures. The stories loosely relate to the gospels about Jesus of Nazareth, but are also each dancer's modern interpretation of their character. The work journeys through the past, present and future and through beautiful, bizarre and barren places. An ensemble of 30 dancers, a video environment and an original soundscore weave the many stories and emotions into a rich tapestry.

Heidi Geier first thought about the possibility of a dance work that translated religious themes into the language of movement while working on her B.A. in religion and biology at Macalester College in St. Paul, Minnesota. Geier works in collaboration with the dancers to develop a vocabulary of motion that expresses the power and emotion of the ancient stories.

-more-

James Balabuszuko-Reay (Composer) resides in Minneapolis, MN, and for the past 12 years has been composing and performing electronic works for dance, film, theatre and multi-media productions. He earned a bachelor of arts in music composition from Macalester College.

Mark Casale (video artist) received his bachelor of arts from the University of Maryland where he studied film theory and began producing film shorts. Casale has been active in Arlington Public Access Cable over the last 10 years and co-produced the best live series on Access for three straight years, a philosophical talk show which was the first Access show to broadcast live via satellite to a national audience. He has worked on many independently produced film and video projects and works as a freelance editor in the Washington, D.C., area.

**GW CELEBRATES OPENING OF EISENHOWER NATIONAL CLEARINGHOUSE
CAPITAL COLLECTION AT GELMAN LIBRARY NOV. 1**

**New Capital Collection and demonstration site will house
exemplary math and science materials and programs**

EVENT: An opening reception for the Eisenhower National Clearinghouse (ENC) Capital Collection and Demonstration Site at the George Washington University Gelman Library. Representatives from government, business and industry will join educators from across the nation for an exhibition of ENC's free online services. The celebration will feature hands-on demonstrations of the latest mathematics and science education software produced by federal agencies and commercial publishers.

WHEN: Wednesday, November 1, 1995
3:00 p.m.

WHERE: The George Washington University Club
Marvin Center
800 21st Street, NW
Washington, D.C.

COST: Free and open to the public.

Background:

ENC offers the nation's K-12 teachers and others free online and print information about mathematics and science curriculum and instructional resources. Working in collaboration with the Eisenhower Regional Consortia and The George Washington University, ENC operates 12 demonstration sites throughout the United States. In addition, teachers can preview curriculum materials in the ENC collection at two repositories, the National Repository at The Ohio State University and the Capital Collection at The George Washington University.
